

From Producer to the World™

ABOUT AGT FOODS

- **AGT Food and Ingredients Inc.** (AGT Foods) is a global leader in value-added processing of **plant-based products**, including pulses, grains, staple foods and ingredients, for export and domestic markets.
- We buy crops from farmers around our 39 facilities in Canada, the United States, Türkiye, Australia and South Africa, then clean, process, package and export them to 127 countries around the world. By processing crops in our facilities into finished products, we capture their extra value here.
- Some of our pulses are milled into **plant-based products**, including flours, starches, fibers and proteins, at our premiere ingredient facilities in Minot, North Dakota and Regina, Saskatchewan. We use these ingredients to make plant-based products, including extruded products such as gluten-free pasta and texturized pulse proteins (TPP) at our dedicated extrusion facilities. This is the fastest-growing segment of our business.
- We offer a range of **packaged foods** and **retail products** manufactured by our retail divisions in Canada, the U.S., Türkiye and South Africa. Our brands include **Arbella® Pasta**, **Pastavilla**, **CLIC**, **Tamam**, **Corona** and more.

WHAT WE DO

We buy crops from farmers located near our facilities in Canada, the U.S., Türkiye, Australia and South Africa.

We receive these crops in an AGT facility for cleaning, sorting and processing to create value-added products.

Bulk products are loaded into containers, railcars or vessels for export to world markets.

Products are bagged or packaged for retail markets in 127 countries around the globe.

Pulses are milled into ingredients for plant-based, high protein and allergen-free food formulations.

Products are packaged and canned for ready-to-eat foods, retail applications and more.

Our products are sold in marketplaces around the globe, including traditional markets and grocery stores, as well as to food companies for use in their own products.

WHERE WE ARE

AGT Foods operates 39 facilities across Canada, the U.S., Türkiye, Australia and South Africa as well as sales offices in India, the U.K., Europe and China.
